Race in the  
Formula E Simulator  
and win an  
ABB Terra AC wallbox!

## Switch to electric today. Ready. Set. Charge.

We are ABB E-mobility, a technology leader for more than a decade. Leading the way to a future of zero-emission mobility. ABB is the official partner of the Formula E, the all-electric international street racing championship. Together we make electric driving possible and together we create success!

Come visit our booth 7.303 and experience yourself what e-mobility solutions we can offer you. And we challenge you to drive a lap in our Formula E simulator. Experience the feeling of driving progress. The driver with the fastest lap will win an ABB Terra AC wallbox for convenient home charging. The contest starts at 13.30 and ends at 15.30.

Are you ready to go electric? **Ready. Set. Charge.**

# THE WARMEST OF WELCOMES

Whether you're a long-time viewer, or if you'd never seen the Fully Charged SHOW before seeing this event advertised, we'd like to offer you the warmest of welcomes to Fully Charged LIVE, sponsored by Mobility Service.

A lot of water has passed under the bridge since we announced this show two years ago. As a British-based, but globally-focused business, we have sincerely missed everything about Europe, and we are delighted to be bringing Fully Charged LIVE to the RAI in Amsterdam.

Another thing that has changed is the cost of energy – both in euros, and to the earth – and understandably fossil fuels are under serious scrutiny. At this exhibition, those of you that are paying a high price for petrol at the pumps, will meet those that charge cheaply, often overnight, on cleaner and cleaner electrons. While the latest Fully Charged LIVE UK, in its fourth edition, was the biggest gathering of electric cars ever held globally, our Amsterdam show is only in its first year, and we are at the start of our electric journey in Europe. Over the coming years, we will establish this event as a festival of electrification. This year we have electric vehicles of all shapes and sizes, from skateboards and scooters, bikes to trikes, mopeds to motorbikes, campers to vans, there is something to move everyone. And as energy costs come into sharp focus, we will also have a Home Energy Advice Theatre where we can suggest short-term money savers, and longer-term investments for your property.

Against some strong headwinds – COVID, conflict and a supply chain crisis – our event team has worked tirelessly to create a three day show that can entertain and educate thousands of attendees, and to enable people to transition to cleaner and greener technologies. With that in mind, we have a mix of more than 40 live sessions, a selection of visitor attractions, and a carefully curated exhibition of technologies as seen on the Fully Charged screen.

## **i** IMPORTANT INFORMATION

**Opening Times** – The show opens at 10.00 am on Friday, Saturday and Sunday. We would ask for your patience as you enter the show; queues are quite likely. The show closes at 5pm on all three days.

**How To Get Here** – Directly on approaching Amsterdam via the motorway A1, A2 or A4 and entering the ring road (A10), the RAI is indicated on the signboards. RAI Amsterdam is located along-side the ring road (exit 9). From the exit the route to the car parks is indicated. Please follow the signs to Hall 7; **Fully Charged LIVE Europe**.

**Disabled Access** – RAI Amsterdam is accessible for people using a wheelchair. The aisles at the show floor are spacious and the surface is flat. Elevators and disability toilets are available.

**Test Drives & Rides** – Whether it is electric cars, or other electric vehicles, access to test drives in a supply constrained market is competitive. If you are unable to access the electric vehicles, our exhibitors will help facilitate opportunities after the event.

**COVID** – While The Netherlands has no longer any legal restriction, we respect that many wish to take precautions. Please consider others whether it be through keeping your distance, mask usage or hygiene. If you have symptoms, please do not attend.

Presenting team: Robert Llewellyn, Helen Czerski, Jack Scarlett, Reinier Van Den Berg, Froukje Jansen & Dan Caesar.
